

Your Truth it Stands

At the time this was written, unemployment was at an all-time high in the U.S. with people working harder than ever just to stay in the same place. At least 50% of college graduates were unemployed and retirees were faced with an uncertain future, rising costs and questions of where to put their money.

Even in volatile times, there is one truth you can always count on, and that is God.

Music and Lyrics by Deborah Johnson

You are my rock, you are my might, Through the darkness you are my light.
When all is lost in shades of grey, You're the hope that lights my way.

YOUR TRUTH IT STANDS through every trial, Through every test and storm and fire. It's power will break the chains that bind A fearful soul and weary mind.

For every nation, tongue and creed, You are a help for those in need. With living bread Your Word can feed With it's unfailing power to lead.

YOUR TRUTH IT STANDS through every trial. Through every test and storm and fire. The one that longs to follow you Will find your grace and precepts true.

O precious Lord please take my hand, As you lead, please help me stand.
When I am tired and weak and worn, Give me strength to fight the storm.

YOUR TRUTH IT STANDS through every trial, Through every test and storm and fire. My heart it longs to follow you That I may find that you are true. ...That I may show the world you're true.
